

## OUR STORY:

# AGRICULTURE

With roots tracing back more than 125 years to the founding of the Electric Wheel Company in Quincy, Illinois, Titan International has grown to a world leader in off-highway wheels and tires. Today, Titan also produces Goodyear® Farm Tires — a brand with a long tradition of developing new technologies, innovations and premium designs.

**125+ YEARS IN THE  
OFF-HIGHWAY BUSINESS**

**STANDARD AND  
INNOVATIVE OPTIONS**

**WHEEL AND TIRE EXPERTISE**

## WHAT WE OFFER

We take pride in offering a full-scale line — from tried-and-true designs to industry-leading agriculture tire technology we pioneered ourselves.

► From tried-and-true proven designs to the leading agriculture tire technology we pioneered ourselves - we take pride in offering a full-scale line that allows us to meet the diverse needs of American growers in any application throughout the country.

► Complete line for every type of agriculture equipment and configuration.

## INNOVATION

Our unique position as a complete solutions provider for both wheels and tires allows us to innovate in ways other companies can't. There's no better example of that than Low Sidewall Technology® (LSW®) – pairing an increased wheel diameter with a lower profile tire to match.

**LSW**<sup>®</sup>  
Low Sidewall Technology<sup>®</sup>

**REDUCED SOIL COMPACTION**  
with up to 40% lower inflation pressures

**REDUCED ROAD LOPE**

**REDUCED POWER HOP**

**IMPROVED TRACTION**  
with stability that provides more power to the ground

## BOOTS ON THE GROUND, EYES ON THE GROWERS

We deploy Ag Specialists throughout the U.S., meeting with growers to help improve their tire performance. And you have the support of Titan and its knowledgeable dealer network wherever your work takes you.

► Nearly 1,200 agriculture dealers throughout North America
